@Stella_Glass

No Hole in Glass Walls - Yorkdale Mall - Toronto, ON

Canadian-owned and operated since 2001, Stella Custom Glass Hardware specializes in custom design and a collaborative approach by creating, manufacturing and supplying glass hardware that transitions your vision into a unique and constructable solution.

Cantilevered Glass Fin Walls - First & Main Tower - Portland, OR

Glass Fin Wall - University of Alberta - Student Union Building - Edmonton, AB

MAKING THE IMPOSSIBLE!

Stella's custom design and fabrication capabilities can help you create a unique solution for your project.

Our favorite projects include designing parts for the kinds of structures that we've never encountered before. Challenge us to design fittings for any complex structure, resolving design complications is what we do best!

No Hole in Glass Walls - Queen's University - The Isabel - Kingston, ON

Design Assist Service Levels

We want to work with you and we're prepared to invest at the front end. For this reason we provide a complimentary assistance program and, when it's required, a full design service.

COMPLIMENTARY DESIGN ASSIST

Provide high level feasibility with concept proposals for systems and hardware.

**A COLLABORATIVE
APPROACH**

FULLY ENGINEERED SOLUTION

Design assist and engineering for glass, hardware and full project scope.

**ALL-INCLUSIVE
FULL ENGAGEMENT**

More Than Hardware - We Build Glazing Systems

What's glass hardware without the glazing design and understanding the project intent? In addition to providing beautiful hardware solutions we become part of the process. Supporting design assist to install, by offering structural glass solutions from engineering, shop drawings and installation advice.
